## Chestmobile to be in Lemon Grove all day next Tuesday

### All Over 15 Years May Have Xrays

Local civic organizations have been extremely busy this week in preparation for the Chestmobile visit on March 18.

"With only one day allotted to Lemon Grove, we'd like to see the Chestmobile's daily capacity of 800 persons met," C. F. Baxter, x-ray survey chairman stated.

The Chestmobile location, next to the Lindley Pharmacy, was inspected and approved by Chestmobile personnel last week. Preparations have been made to provide parking space for the Chestmobile's arrival in town on the 18th.

Announcement slips were given to all elementary children to inform their parents that all adults 15 years of age and over can receive chest x-rays. Thousands of these announcement slips are being distributed through the local business establishments. Lemon Grove ministers will make Sunday announcements in their respective churches. A movie trailer is now being shown in the Grove Theatre.

Volunteer hostesses will register promptly all persons who wish to receive x-rays. P.T.A. volunteers will be on the morning shift while Business Women League members will sponsor the afternoon shift. The Chestmobile will be open from 10:00 a.m. to 4:00 p.m.

The Chestmobile is a cooperative program of the San Diego County Tuberculosis and Health Association and the San Diego Department of Public Health.

### Petition Filed for Luther N. Hussey in Judge Contest

In last week's Review was a statement by Luther N. Hussey, local attorney, announcing his intention to become a candidate for election on June 3rd, to the office of Judge of the Justice Court of the Homeland Judicial District.

This week Hussey's nominating petition, sponsored by the following named persons, was filed with the Registrar of Voters: Dan Apria, R. K. Tilton, Virginia Apria, A. F. Sonka, Bryan L. Netley, Roy S. Lane, J. Morris Mulkey, Theodore F. Nutter, Stephen Westover, W. J. Parsons, Mrs. Claribel M. Shepherd, Vroman J. Dorman, Fred Michel, Ted G. Haaf, Dr. James C. W. White, James B. Pearce, Thomas E. Parsons, R. C. Andreu, R. S. Sargent, W. B. Vandenberg, Dr. Donald G. Johnson, Mrs. Mae E. Graham, Mrs. Ins Leonle, Vernon Y. Gregory, Andy T. Benson, H. Irving Vernier, Mrs. Zelda Vernier, Channing P. Mason, W. P. Zilker and Jack E. Sanders.

George W. Castle, verification deputy, announced that many others who had expressed a desire to sign the nominating petition were unable to do so for the reason that the law limits the number of sponsors to 30 for each petition.

### In Third Place in Queen Contest

Miss Janet Hentigan, contestant sponsored by Lemon Grove Juniors for queen of the Sportsman Show, has advanced to third place this week.

Votes are made by purchase of tickets to the show.

### DATES CLAIMED

March 15—Fashion Frolics, Woman's Club house, 8 p. m., by Juniors.

March 16—Annual Ham dinner, St. John of the Cross parish, auditorium, 12 to 6 p. m.

March 28—Organ and piano concert First Congregational Church, 8 p. m., Martha Thomas and Edris Leech.

April 7—Fire District Elect., May 1—Millinery style show and dessert bridge, 12 noon, by Teresa Avila Court 1580, C.D.A., La Mesa Woman's Club.

June 15—Annual Rodeo and barbecue dinner, St. John of the Cross parish.

### Water District Board Orders New Tank Type Reservoir

Growth of the Heartland area is again shown by action of the Board of Directors of the Irrigation District this morning when a contract was awarded to the Penn Construction Company of Baldwin Park for the construction of a new tank type reservoir in Fletcher Hills to serve nearly all the area lying Northerly of the SD & AE Railroad as well as a portion of the Grossmont area. The tank is to be of pre-stressed, reinforced concrete construction, 90 feet in diameter and 22 feet high. Contract price is \$1,487,000, and work is to be completed in 120 days, that the tank can be in operation before heavy summer usage develops. The Board also called for bids on a new pumping plant to be constructed in Alvarado Canyon to deliver water to the same area as served by the new Fletcher Hills Tank.

All of this work is being done in accordance with an engineering report submitted by the General Manager and Chief Engineer, M. J. Shelton, early last fall wherein several projects were recommended to be completed before the Summer of 1952. About half of the cost of the reservoir is to be paid from funds collected in the past three years in anticipation of such construction as owners of property developed new subdivisions. As other undeveloped land is subdivided, additional charges will result in repaying the District for funds it has advanced.

The reservoir is to be located on land recently acquired by the District for that purpose. It is anticipated that as the service area is fully developed, it will be necessary to raise the tank to its ultimate height in what may be ten years, depending on how rapidly the area grows.

### Girl Scout Cookie Sale Big Success

Thirteen troops of Brownies and Girl Scouts in the Lemon Grove area participated in the annual cookie sale ending last week. A total of 4346 boxes were sold, approximately \$1,450.

First prize for individual selling the most boxes went to Nancy Beatty, Troop 210, St. John of the Cross School, who sold 230 boxes. Second place went to Ethel Jane Johansen, second year Brownie, Troop 308, St. John of the Cross School, who sold 204 boxes. Third place went to Carol Ann Weber, Troop 475, who sold 155 boxes.

### Easter Seal Campaign Helps Crippled Kiddies

The 1952 Easter Seal campaign to raise funds for the care of handicapped children during the next year will be launched today (Thursday) by the San Diego Society for Crippled Children.

The drive will continue until Easter Sunday, but most of the letters carrying the message of the Society and the colorful Easter Seals will be mailed this week, according to G. Aubrey Davidson, honorary chairman.

No goal has been set for the drive. Davidson said, explaining that directors of the Society are confident that the people of San Diego County will find it in their hearts to give generously to help handicapped youngsters back on the road to health and happiness.

The funds which the San Diego Society for Crippled Children seeks this year will be used to operate the famed Therapy Pool, which in the past year provided 16,727 individual treatments; the orthopedic clinics which last year made 1,336 examinations; and to provide special aids and appliances to children suffering from a wide variety of ailments.

Organized groups of volunteer women will place coin containers in important establishments in every community in the County this week, Davidson said. Every donation to the Easter Seal drive, regardless of size, will express the true spirit of the Easter Season—Hope and Faith. This spirit is well expressed when you give a small child the hope that he may regain his birthright—a happy, useful life.

If you have anything to sell, a Review want ad. will sell it. The ads are cheap, too.

### Cloyd Gives Report on Doings in the State Capitol

Governor Earl Warren presented the state budget for 1952-53, amounting to \$1,183,397,270, at the opening of the 30-day fiscal session of the legislature, at the same time placing a 14-point concurrent special session program, which included public school financing, sex crime penalties, veterans' farm and home loan program, civil defense, San Francisco-Oakland Bay Bridge and joint tenancy.

The legislature adjourned on Thursday in order to give members of the legislature, who intend to run for reelection, an opportunity to return home and file. All 80 Assembly seats and half of the 40 Senate seats are up for election this year. The majority will be running for reelection or seeking to jump from the Assembly to the Senate or for Congressional seats. Before adjourning, 66 bills on the subject of joint tenancy had been introduced on the Assembly side, while the Senate took a short cut and passed a joint tenancy bill without reference to committee or file. The vote for appeal was 34 to 0.

Governor Earl Warren, who issued the 14 item proclamation, said that they were technical what he thinks. Many legislators

### Happy Birthday

Tommy Devin was ten last Friday and his little brother, Jimmy, was five on the same day, so their parents, Mr. and Mrs. Roy Devin, 250 Buena Vista, entertained in their honor at a dinner party on Sunday. Present were Miss Mary Way, Richard Bock, Miss Shirley Poate and friend of Los Angeles, Mrs. James Corvar and sons, Clark and Gary, Mr. and Mrs. Jack Fleming and Brenda, of Downey, Mr. and Mrs. Floyd Richardson and sons, Bill and Bob, of Hemet, Mr. and Mrs. T. A. Devin, Mr. and Mrs. T. R. Shippens, Karen and Terry, of San Diego, Mrs. Jack Absher, Jacqueline and Dick, of National City, Joe Stone and Richard Apple.

Patricia Ann Reed, daughter of Mr. and Mrs. Stuart H. Reed, 1529 Drexel, was seven on Saturday, so her mother invited ten little friends in the afternoon to help Patricia observe the day. The St. Patrick's Day motif was used and Mrs. Roy Irvin assisted the hostess. A candle-lighted birthday cake was a feature of the refreshments. Present were Sharon Fitzgerald, Paul Edel, Vernon Goodman, Susan Seamon, Mary Kay Jagers, Marbeth Parry, Kathleen and Susan Zellmer, Alice Ervin and Tyler Messer.

Mr. and Mrs. J. A. Setchell, 7913 Nichols, received at a party last Wednesday evening honoring their son, Frank on his eighth birthday anniversary. Present were Vickie and Mike Myers, Donald Brant, Donald and Terry Roberts, Robert Haas, Donald Turner, Henry Hall, Joe Strole, Loyd Pedrina, Raymond Johnson, Jerry Baker, Janet and Laird Hodges, Jimmy Gibbs, Dudley Griffen, Bill Kerner. After games a buffet supper was served.

USE "DATES CLAIMED"

### Parents Meet to Consider Report Cards

Approximately 70 parents and others interested in the schools met at the San Miguel School last Tuesday night to discuss report cards.

Although the County School Board recently adopted a new report card, it is felt that this card does not meet local requirements in all respects.

Miss Elaine Milam, County Guidance Attendant Coordinator, led the discussion. Miss Milam pointed out that we all vary in such characteristics as height and weight, and that it is just as normal for us to vary in our ability to do arithmetic, spelling and other school subjects.

It was stated that there are at least two ways children can be graded: on their ability as compared to the best pupils in the class, or on the basis of how well they do their work in relation to their abilities.

Many times a child will become frustrated because his grades are compared with brothers, sisters or other children by parents. This type of comparison should be avoided at all times.

Miss Milam said that some difficulties encountered by children in school may be due to the fact that 18 percent of elementary pupils in this county moved about and attended more than one school last year.

It was indicated by the audience that they felt report cards should show more clearly what the child is doing in school; state actual performance rather than potential ability and tell how the child measures up to his grade level.

Included in the Tuesday night meeting were 30 persons who will form a Report Card Advisory Committee. This group represents churches, service clubs, P.T.A.s and teachers. There were also six members-at-large elected to the committee from the audience. S. K. Solleter, district director of education, was elected chairman.

The committee will continue to meet at two-week intervals until an acceptable report card is developed.

### Mrs. J. A. Setchell Chosen Head of P.T.A.

Lester Wadsworth, assistant director of Civil Defense in San Diego County, gave a very interesting and enlightening talk at the meeting of Monterey Heights P.T.A. last Thursday night.

Mrs. J. A. Setchell was elected president; Mrs. M. F. McKenney, 1st vice president; Mrs. W. H. Carpenter, 2nd vice president; Mrs. J. T. Mitchell, recording secretary; Mrs. David Cohen, corresponding secretary; Mrs. Leonora Cafferata, treasurer; Louis Poluzzi, auditor; Mrs. Kermit Bowen, historian.

### FLIES TO ILLINOIS

Ralph Bowman, of the Grove Pastry Shop left Friday for Edgewater, Ill., via plane to see his mother who is ill. He returned home Wednesday.

### USE "DATES CLAIMED"

The picture above shows Mrs. Margaret Darroch presenting P.T.A. life membership pins to Mrs. R. H. Milner and Mr. Blaine recently at the observance of the 30th Founders Day of the P.T.A.

Lemon Grove Kiwanians, Howard Stiner (left), chairman of the auction committee, and Channing Mason, president, admire selected articles to be auctioned at the Lemon Grove Kiwanis public auction Saturday at 10 a.m. on Main St and Broadway.

### Kiwanis Sale Opens with Band Music

There will be fun, entertainment and bargains for Saturday at 10 a.m. as the Lemon Grove Kiwanians hold their public auction.

A parade from the fire station to the auction site in the center of Lemon Grove comprised of the fire engines, Lemon Grove School majorettes and school band will spark the opening of the auction.

The local Hi-Y group will assist in the auction with Ray Wright as auctioneer.

All proceeds from this event will be used in part for the Lemon Grove Kiwanis youth fund and the building of a fund to purchase a two-way radio fire alarm system for the fire department.

Owing to the unfavorable weather conditions last week, this auction was moved to Saturday; however, if rain again persists, the event will take place the following Saturday.

### Fifth Annual Kids' Easter Bunny Party

Ed Maulsesaux has made arrangements for the fifth annual Easter party for Lemon Grove children on Wednesday, April 9.

The first show at Grove Theatre will start at 9 a.m. with the drawing for prizes donated by merchants. There will be a second show, if needed. There will be candy for all kiddies.

Coupons will be given to children at the schools and preschool children may get coupons from merchants.

### Red Cross Has Done Good Work in Korea

When the final story is written of the war in Korea another achievement for the American Red Cross will be added to the already long list, but a report to the end of last year can be made now. When the Northern Korea Communists invaded South Korea on June, 1950, there were 161 Red Cross field workers serving the American armed forces and in the 18 hospitals of the Far East. By January 1 this year there were 350 Red Cross field workers in the same area; with our forces in Korea; and in the 30 hospitals of which eight were in Korea and 131 others had been returned home through the rotation system. Red Cross accompanied the first units sent into Korea in July, 1950.

A few figures may indicate the size of the job that these trained staff people did for our men to the end of last year. Approximately 170,000 servicemen were assisted in the field, and 15,000 assisted in the hospitals. During this period 357,000 letters and cables were sent or received and 5,700 loans and grants were made to servicemen by Red Cross, totaling \$139,000. Also, combined attendance of servicemen at recreation programs, snack bars and coffee counters in all Red Cross clubs and canteens was more than a million a month.

Four million tons of doughnut mix has been shipped into Korea to make the 18,421,000 doughnuts distributed to the boys with something like 844,000 gallons of coffee. Great quantities of many items for the comfort and convenience of the boys included 145,000 hand towels and 297,000 packages of razor blades to mention a couple.

Casualties in the Korean War have received 160,000 pints of whole blood flown from the United States, and 80,000 pints taken in Japan. This was all type "O" blood because battle conditions do not permit cross-matching and "O" type can be given to everyone, with minor exceptions that can be detected readily and corrected. In addition hundreds of thousands of units of blood plasma have been flown from this country, and this continues day after day.

The contributions of American Red Cross to Korean relief and by itself, but one single item must be mentioned: 11,000 prisoner of war packages are waiting in Japan for distribution to our men as soon as access can be obtained to the camps. Red Cross is truly "on the job" carrying responsibility, which is service to our armed forces.

Because of weather conditions last Friday night, the class did not meet as originally scheduled. Everyone who does not have a First Aid card is urged to attend the new free class in instruction.

### First Aid Class Begins This Week

A new class in First Aid, under the direction of the American Red Cross, will begin this Friday evening at the Lemon Grove Fire Station on Central Avenue and School Lane. It will be held from 7:00 to 10:00 each Friday evening for a total of 22 hours.

Rolland Purves, sixth grade teacher, is the instructor, and the class is sponsored by the Adult Education Division, Grossmont High School, with John Davis, director.

Because of weather conditions last Friday night, the class did not meet as originally scheduled. Everyone who does not have a First Aid card is urged to attend the new free class in instruction.

Guests were Mesdames: Bruce Cooke, Frances Rowan, William Cabral, Clair Shaughnessy, Bert Jones and Edith Louney and Miss Janet Hentigan.

It was announced Mrs. Wayne Johnson has been appointed to serve as representative on the Community Center Control Board.

Because of the success of their plan of donating as a group to the March of Dimes Fund, the League has decided to use the same plan in donating to the Red Cross.

A nominating committee, composed of Mmes. E. A. McGuire, Burton Snyder and P. J. Chappell, was elected to select candidates for officers to report at the next meeting on March 20 at 12:30 at Community Center.

### Business Women's League

Attractively decorated tables and a fried chicken dinner were featured at the meeting of the Business Women's League last Wednesday evening. Because the meeting was held in the evening many members were able to attend who cannot attend the noon meetings.

Guests were Mesdames: Bruce Cooke, Frances Rowan, William Cabral, Clair Shaughnessy, Bert Jones and Edith Louney and Miss Janet Hentigan.

### SCHOOL HOLIDAY

St. Patrick's Day, Monday, March 17, will be a holiday for the children of St. John of the Cross School.

Lemon Grove Stores open Friday evenings till 9.

### WELCOME TO LEMON GROVE

Mr. and Mrs. W. B. Roberts of Pacific Beach moved this week to 7455 Roosevelt, having purchased the home from Mr. and Mrs. Paul Harris, who are building a home in Monterey Heights.

SCANNING THE WEEK'S NEWS  
of Main Street and the World**Lies in Accord on United Army; Drug May Wipe Out Tuberculosis**

**EUROPEAN ARMY**—The members of the North Atlantic Treaty organization have reached agreement on four important points for the defense of Western Europe and the strengthening of the United Army which may mean the salvation of the democratic form of government. One of the points will involve great sacrifice on the part of every government by soldiers, and by the taxpayers of the participating nations. Most important, perhaps, was the agreement to provide about 50 battle-ready land divisions and 4,000 operational aircraft for European defense this year in addition to forces Greece and Turkey can make available.

Second, and possibly the most controversial, to approve the generalities of a plan partially drafted by France, West Germany, Italy, the Benelux nations to merge their armies into a European defense. Under this plan, the Allies of World War II propose to rearm West Germany. The arming of West Germany, however, must be approved by the governing bodies of the countries involved in the treaty, after the French will ratify the proposal is still in doubt. If turned down by the French National Assembly it could mean the collapse of the army.

Third, the N.A.T.O. nations agreed to create a board to make a detailed study of the western world's needs for airfields, barracks, communications lines, and other army-supporting facilities, and recommend to share the cost of building them.

And fourth, to streamline the N.A.T.O. itself and make it more efficient, on a pattern roughly like that of the United Nations secretariat, and of the present overlapping boards and committees.

The plan for a 50-division army this year means that 20 more divisions will have to be recruited and armed in the next 10 months. One party interpreted the plan in these words: "Right now the Reds are walking France's westernmost Atlantic shore, but by the end of the year they would have to fight their way. By the end of 1954 we would be able to throw them back."

This picture of the big three foreign ministers and West Germany's Konrad Adenauer was made at conclusion of talks at which agreement was reached on outstanding issues for a united European army. Left to right: Konrad Adenauer of West Germany; Secretary of State Dean Acheson; Sir Ernest Bevin, British foreign secretary; and Mr. Robert Schuman, French foreign minister.

**AXES**—The Public Affairs Institute, which describes itself as a liberal organization, has issued a study of U.S. tax laws which cut six loopholes that are costing the Federal government \$4,500,000 a year and benefits almost entirely those with annual incomes of than \$10,000.

They are outlined as: (1) Percentage depletion—\$750,000,000; (2) Interest splitting—\$2,500,000,000; (3) Failure to include a provision for holding of taxes on dividend and corporate bond interest payments \$60,000; (4) Failure to increase estate and gift tax rate sharply again up on this levy—\$400,000,000; (5) Failure to increase the gift tax rate sharply and tighten up on this levy—\$400,000,000; approval of a broadened family partnership provision in the 1951 100,000,000.

They will be heard about this study in the next few weeks as it gets into full debate over the proposed new tax bill.

**ISSIAN A-BOMBS**—On the 34th anniversary of the Soviet army, in military leaders and newspapers warned the western world that possessed "atom bombs of all calibers" and said that any aggression would be met with "crushing, deadly blows." In addition, the sources charged that "Anglo-American imperialists" are planning a third World War.

Most observers agreed that the speeches and articles were the usual Soviet propaganda that is necessary on an important occasion. It was noted that the claim clearly implied that Russia has in her tactical atomic weapons to match those recently developed and in the United States.

**ST OF LIVING**—The Bureau of Labor Statistics reports the cost stood still in its latest 30 day survey as measured by the government's new consumers' price index. Clothing and house prices rose about a tenth of a per cent, but clothing and house prices were down a little. A new index stood at 189.1 per cent of the 1935-39 average in mid-year. This was 4.2 per cent above a year earlier and 11.1 per cent the pre-Korean average. Wholesale prices were reported 5 per cent a year ago.

**OMIC SPY TEAM**—Julius and Ethel Rosenberg, convicted last year of stealing atomic secrets for Russia and sentenced to die for their sentences upheld by a Federal Appeals Court. Three judges said in their decision: "It cannot be held that these sentences are unconstitutional." Only the United States Supreme Court can review the Rosenbergs from the electric chair.

Rosenbergs are the first Americans ever sentenced to death for outside a military court. At the time of their conviction, Judge R. Kaufman called Rosenberg worse than a murderer. In his opinion, Kaufman said, the Rosenbergs' treason led to the war in which tens of thousands of American casualties.

**BERCULOSIS**—Dreaded Tuberculosis, once the great scourge of man, within a few years has been completely wiped out. This hope

rested on a new wonder drug which was used in the treatment of 200 persons in the advanced stages of the disease at a New York hospital in Island.

It is smaller than a pea (see picture), it is easily absorbed under various names. The pills will treat a patient for 25 to 50 cents a

day. Tests at Sea View doctors were at results obtained drug. Within a few weeks, high temperatures went down to normal, cavities began to heal, patients recovered energy and appetite. At last, may have found the answer in the battle against tuberculosis.

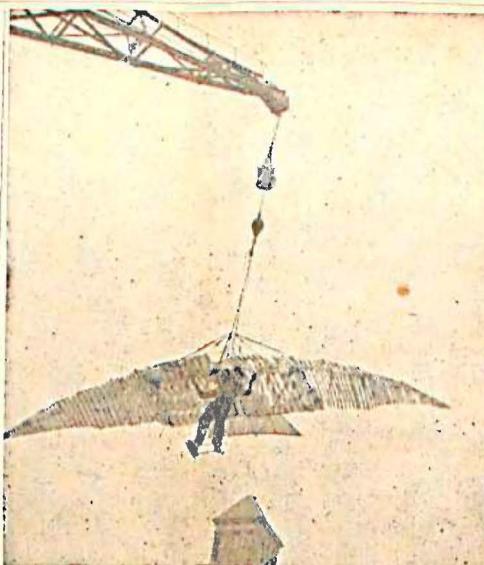

**MEAT PRODUCTION****on's Packers Store Meat Surplus**

**J.S. Department of Agriculture**—The nation's meat production continues to grow faster than consumer can take it off the market. Production in late February was estimated at 22 per cent higher than at the same time last year.

Beef stocks in storage were up 17,000,000 pounds in January of this year, compared with the previous month.

**WHICH ONE?** . . . Here is Whitey Lockman who played first base for the Giants last year and did a pretty good job of it. He is ready with his first baseman's glove and also his outfielder's glove. Just which he will use he isn't quite sure.

**HAS FAITH**—BUT . . . In Berlin, Hubert Herbst, German inventor, refuses to believe that flying is strictly for the birds. So he invented a pair of wings, which, Herr Herbst is confident, will enable him to soar through the air. Despite Herbst's confidence, however, he prefers to be anchored to something solid as he tests his home-made pinions. So here you see him flying with the assist of a crane. This is the first time he gained any altitude with the wings.

**GERMAN PASTOR ON AMERICAN TOUR** . . . Rev. Dr. Martin Niemoller, German pastor, and his wife, Else, rest at Idlewild airport, New York City, shortly after their arrival for a five weeks' speaking tour. The 60-year-old German Lutheran pastor gestures vigorously as he tells newsmen that he is strongly opposed to re-arming Germany because he fears it will hold up the peaceful unification of his country. He said he was speaking as a clergyman, not a politician.

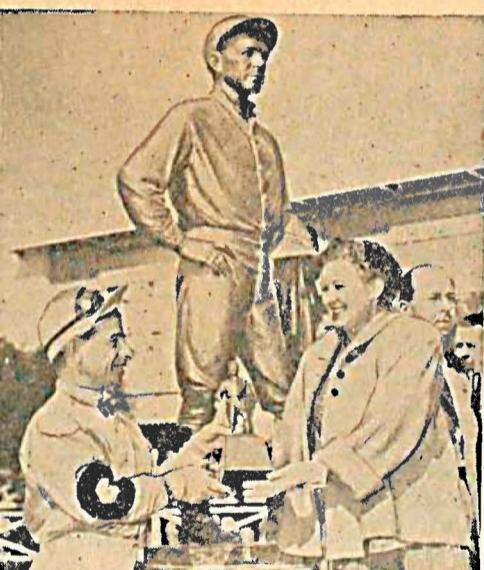

**HELD FOR RANSOM** . . . Edward Stansbury, vice director of the U.S. Information Service in Taipei, Formosa, is the diplomat who was taken from the British steamer Wingsong by Chinese pirates in the Straits of Formosa and held until \$10,000 ransom had been paid.

**BRITISH SKATER** . . . In Oslo, Yvonne Sugden, London, who at 12 years of age is perhaps the youngest ever to compete in an Olympic competition, practices for the winter games. She has just arrived from London and is working some of the kinks from her muscles.

**BANK ROBBER'S MOTHER** . . . Mrs. Mary Sutton, mother of one of America's baddest bays, bank robber Willie Sutton, faces reporters at her Brooklyn apartment. "It's a terrible thing for a mother to go through," she says.

**LONGDEN GETS TROPHY** . . . In Arcadia, Calif., Jockey Johnny Longden receives the George Woolf memorial trophy from Woolf's widow as the nation's top jockey for 1951. The trophy is presented each year in honor of famed jockey George Woolf. Selection of the winning jockey is made by the California turf writers on basis of consistency, performance, contribution to his profession, character, integrity and sincerity. A statue of Jockey Woolf is in the rear of picture.

**BUTCHER REWARDS LAD** . . . In New York, five-year-old Max Rabkin, Woodside, Queens, could have anything he wanted in the meat shop of Tommy Marino. He chose a leg of lamb as a reward from the proprietor for opening the door of the meat freezer in which Marino was trapped for more than an hour, due to a defective lock. Little Max is shown seated on the top of the showcase as Marino gives him his reward. Had it not been for Max, Marino could have frozen to death.

**THE WASHINGTON Merry-Go-Round**

BY DREW PEARSON

Illustrations by HARRY COOPER

Cynical Americans

TRAVELING across the U.S.A. these days you are struck with a new cynicism on the part of the American public. It's a rebellious cynicism, inclined to lay all our troubles on the doorstep of Washington, a feeling of frustration, of disgust with corruption, and weariness with the Korean war. It's an atmosphere that lends itself to any flag-waver or tub-thumper who wants to take advantage of this cynicism by running for office.

This is exactly the atmosphere that swept a lot of Democratic screwballs into office with the anti-Hoover tide of Roosevelt victory in 1932, and it may sweep a lot of Republican screwballs into office this fall.

One dangerous part of the current feeling has been a certain disillusionment with our electoral system. Folks are resentful of the bosses in both parties and they figure that though President Truman probably didn't mean to blurt out what he did about "eyewash" primaries, nevertheless he was telling the truth.

On the other hand there is growing interest in the proposal of Sen. Paul Douglas of Illinois and Rep. Charles Bennett of Florida to hold a nation-wide presidential primary, which, though not binding on the delegates, might put a crimp in the party bosses and prevent the traditional picking of presidents in the 3 A.M. quiet of a smoke-filled room.

The smartest thing Mr. Truman could do, in view of his eyewash remark and this public cynicism is to exert some altruistic leadership and help put across the Douglas-Bennett nation-wide primary.

**Bossed Delegates**

In five states it's a fact that the people have no say whatever in the selection of delegates attending the presidential conventions. In Alabama, Arizona, Arkansas, Georgia and Louisiana, the delegates are chosen by party leaders and are simply told how they are to vote.

In 27 other states democracy fares little better. These states for the most part follow the plan of state conventions, where the party bosses can railroad the selection of delegates. The bigger states which follow this hand-me-down convention system are: Michigan, Iowa, Indiana, Kentucky, Mississippi, Missouri, North Carolina, Tennessee, Alabama, Texas and Virginia.

**Best Primary**

The state generally conceded to have the best primary system is Oregon, where presidential aspirants are unable to keep their name off the ballot if they feel they won't make a good showing. Eisenhower's name, for instance, has been kept out of the Wisconsin primary on the belief that he wouldn't make a good showing there but in Oregon, any candidate's name can be entered without his permission, which makes for a genuine popular test.

Nebraska voters had the same "free filing" privilege until 1951 when a reactionary legislature abolished it.

New Hampshire, in connection with which, President Truman used the eyewash term, happens to have one of the nation's fairer primaries.

**Flynn's Balliwick**

In New York, which controls the largest bloc of delegates and therefore is most influential in nominating our presidential candidates, the delegates do not have to reveal which candidate they favor. Thus, when New Yorkers vote in a primary, they are forced to vote for pledged party stooges. They do not know whether those delegates will favor Truman, Kefauver or Stevenson; all they know is that the delegates will vote the way Boss Flynn of the Bronx and State Chairman Paul Fitzpatrick tell them to.

**Ohio's Tricks**

Ohio has still another gimmick which plays into the hands of the bosses. In Ohio, delegates must remain pledged to a certain delegate only as long as their "best judgment and ability" so dictate.

Though it's never happened, this conceivably could mean that delegates could decide the day before balloting started that their man didn't have a chance, and switch to someone the bosses liked better.

Illinois has a similar loophole for countering the people's choice.

**Hoover vs. Ike**

Herbert Hoover, long-time isolationist, is secretly trying to line up delegates against Eisenhower in New York and New Hampshire . . . By an ironic twist of fate, Hoover underwent exactly the same criticism as Taft now makes against Eisenhower. When Hoover ran for President, he had never registered as a Republican . . . The growing unpopularity of President Truman in the southwest is similar to that of Hoover in pre-Roosevelt days.

**"COLD DEMONS" GET JUDY!**

**U. S. DEFENSE BONDS Are Now U. S. SAVINGS BONDS**

**"Miracle Drug"****say SURIN Users**

Pains of Arthritis, Rheumatism, Neuritis, Lumbar, Bursitis. Relief Can Start In Minutes

There's no internal dosing with SURIN. Nothing to swallow and wait anxiously for relief. You simply apply SURIN right at the point of pain and blessed relief comes quickly. Of course there's a reason for this wonder-working new external fast pain relief medicine.

It's methacholine, a recent chemical discovery released for medical use. It acts rapidly to aid penetration of SURIN's pain-relieving ingredients.

Methacholine also causes deeper, longer-lasting pain relief and increased speed of local blood supply. In university hospitals it brought fast relief to 12% patients and in home-for-the-crippled V.F.W. and disabled veterans' organizations, modern SURIN brings faster relief, longer without numbing or blurring vision. Simply smooth on SURIN at the point of pain and feel pain ease in minutes. Money-back at your doctor's office. And it's safe. It doesn't cause pain faster and better than anything ever used. A generous jar costs \$1.25. SURIN is not a cure for any of these conditions.

McKesson & Robbins, Inc., Bridgeport 8, Conn.

**Couldn't Sleep  
Couldn't Eat**

Maybe you aren't very sick and yet you don't feel really well. Perhaps you suffer from head-aches, indigestion, nervousness, gas and bloatedness.

Frequently these symptoms are caused by constipation. When that's the case be smart and like Mr. Peter Butcher of Chicago, Illinois.

Dr. Peter's LOZOGO

Mr. Butcher states: "I suffered very badly from functional constipation and my bowel movements were not very regular. Since taking Lozogo when needed I feel much better. My stools are regular and I end up with a bowel movement."

Gently and smoothly this proven laxative and stomachic tonic medicine puts sluggish bowels to work and aids them to eliminate wastes and rid the body of irritating constipation's gas, giving the stomach that comforting feeling of warmth.

Lozogo's amazing effectiveness is due to a unique formula containing the finest and best one or two of nature's medicinal herbs, roots and bark and secret formula perfected by Dr. Peter Farnham & Sons Co., Dept. WNU-24, 3501 Washington Blvd., Chicago 12, Illinois.

Helps keep me on my feet!

say many old folks about good tasting SCOTT'S EMULSION

Thousands of happy folks know that Good-tasting Scott's Emulsion helps you get well faster—and helps you keep strong when you're ill. You need more natural A&D Vitamins! Since it's HIGH ENERGY FOOD TONIC—rich in natural A&D Vitamins—this is a natural energy-building natural oil. Try it. See how well you feel. Easy to take and digest. Economical. Buy today at your drug store!

MORE than just a tonic—it's powerful nourishment!

#### BUILDING CONTRACT DOCUMENTS ADVERTISEMENT FOR BIDS

Notice is hereby given that the Lemon Grove School District, Lemon Grove, California, acting by and through its Board of Trustees herein referred to as the "Owner," will receive up to, but not later than 8:00 P. M. on the 8th day of April, 1952, sealed bids for the award of a contract for the furnishing of all labor, materials, tools, expendable equipment, and all utility and transportation services necessary for the construction of Additions to and Remodeling of Lemon Grove Intermediate School on Portions of Lots 10 and 17, Subdivision No. 2 of Lot 12, Rancho Mission, Lemon Grove, County of San Diego, State of California.

Bids shall be opened and publicly read aloud at the above stated time in the office of the District Superintendent of Schools, Lemon Grove, California.

Each bid must conform and be responsive to this invitation. The information for Bidders, the Plans, Specifications, and all other Documents comprising the pertinent Contract Documents, are now on file and open to public inspection in the office of the Architect, 493 Scripps Building, San Diego 1, California, and may be obtained by depositing \$50.00 for each set. This deposit will be refunded if the set or sets of Contract Documents delivered are returned in good condition within ten (10) days after the bid opening.

Each bid must be accompanied by a certified or cashier's check payable to the Owner, or a satisfactory bid bond in favor of the Owner executed by the Bidder as Principal and a satisfactory Surety Company as Surety, in an amount not less than five (5%) percent of the maximum amount of the bid. The check or bid bond shall be given as a guarantee that the Bidder shall execute the contract if it be awarded to him in conformity with the Contract Documents and shall provide the surety bond or bonds as specified therein within five days after notification of the award of the contract to the bidder.

The Owner reserves the privilege of rejecting any or all bids, or to waive any irregularities or infirmities in any bid or in the bidding. Preference will be made in the award for California made supplies, pursuant to Sections 4330 to 4334 inclusive, Government Code.

The Owner has determined the prevailing rate of per diem wages in the locality in which this work is to be performed for each craft or type of workmen needed to execute the contract, which will be awarded to the successful Bidder, to be as follows:

Trade Per Hourly  
Occupation or Diem Wage  
Rate

Air Tool Operator \$15.60 \$1.95

than \$175 per hour more than the hours of 7:00 o'clock A. M. and 7:00 o'clock P. M.

The foregoing schedule of per diem wages is based on a working day of eight hours. The wages of every laborer and mechanic engaged in work on the premises shall be computed on a base rate of eight hours per day, eight hours of continuous employment, except for lunch periods, constituting a day's work when a single shift is employed, and seven and one-half hours of continuous employment, except for lunch period, constituting a day's work when two or more shifts are employed.

### OVERTIME:

Subject to the exceptions herein noted, work in excess of eight hours per day shall be permitted upon compensation, when a single shift is employed, at one and one-half times the basic rate of pay for all hours worked in excess of eight hours on any one day, or at any time during the interval from 5:00 p.m. to 7:00 a.m. Monday, or on holidays, and when one or more shifts are employed, at one and one-half times the basic rate of pay for all hours worked in excess of seven and one-half hours on any one day or at any time during the interval from Friday midnight to Saturday morning.

### EXCEPTIONS:

Carpenters' rate is double time for all overtime.

Cement Finishers' overtime rate is time and one-half for the first three hours of overtime in any one calendar day, and double time thereafter.

Operating Engineers' overtime rate is time and one-half; double time on Sundays and holidays; and double time whenever Operating Engineers are working on any project where members of other crafts (on the same project) are receiving the double time rate.

Reinforcing Iron Workers' rate is double time for all overtime.

It shall be mandatory upon the Contractor to whom the contract is awarded, and upon any subcontractor under him, to pay to any worker, his wife and dependents, the sum of \$25.00 for each day he is employed.

No bidder may withdraw his bid for a period of thirty (30) days after the date for the opening of bids.

Attention is called to the fact that a list of proposed subcontractors must be submitted with the bid.

No bidder may withdraw his bid for a period of thirty (30) days after the date for the opening of bids.

### Grover Patrol Treated

Boys from the 7th and 8th grades at Lemon Grove School who serve on the Grover Patrol, playground safety, were treated to a basketball game Monday evening of this week at Point Loma High School when Los Alamos Naval Air and Naval Training Center met. The group traveled by school bus, accompanied by Iver Petersen and Thomas Brogan, school coaches.

### Monterey Heights

Two new students have entered the 5th grade in Mr. Poluzzi's room. Terry Quinlan, who was born in Detroit, first attended classes in San Diego before his family moved to Lemon Grove. Roseann Heidick came from Albuquerque, New Mexico, while her parents were stationed in that country during World War II.

This 5th grade class recently sent letters to the Standard School Broadcast, thanking them for the wonderful programs they have presented for children during the school year. As part of their study of American history, the boys and girls are constructing log cabins, covered wagons, and other types of shelter used by pioneers in Eastern United States.

This news was submitted by Paul Hayman and Kay Gullikson of the 5th grade.

A unit on birds developed in Mrs. See's 2nd grade at Monterey Heights as a result of the class watching a flock of 200 birds flying over the school. The interest which developed resulted in the children bringing books and pictures of birds to class and giving many fine reports. Three excellent original stories were read to the class by Jimmie Kost, Charlene Coker and Sandra Spivey.

### PARENTS GUILD

The Parent's Guild of St. John of the Cross School will hold its regular monthly meeting tonight Thursday in the church basement. J. O. Blethan of San Diego will be the speaker. Mrs. H. J. Dugas, who received the surprise package gift at the last meeting will contribute the package to be given away at this meeting.

The Parent's Guild will serve a luncheon to all children of the school on Thursday, March 29. The 7th and 8th grade mothers will help serve the luncheon. Proceeds will go into the playground equipment fund.

An all school paper drive sponsored by the Parent's Guild will be held on the weekend on March 21, 22 and 23. Papers, magazines, cardboard and rags will be accepted and can be left in the booths near the rodeo grounds at any time.

Girl Scouts and Brownies from the five troops of St. John of the Cross School will provide the program for the April meeting of the Guild. The Girl Scouts will have the Presentation of Colors and the Brownies will present a pantomime.

### OBITUARY

#### JEWELL A JONES

Masonic memorial services will be held tomorrow (Friday) in Johnson-Sauv Mortuary for Jewell A. Jones who passed away Tuesday in a San Diego hospital following a long illness. Interment will be in Ft. Rosecrans National Cemetery.

Jewell A. Jones was born in Stewartville, Mo., November 23, 1906. He had resided in Lemon Grove for eleven years, the home being at 1884 Ensenada. A veteran of World War II, he was active in veterans affairs in San Diego County. He was employed as an electrician at the Naval Training Center. Mr. Jones was chaplain of the County Council of Veterans Organizations, past commander and adjutant of Rover Post 449, Veterans of Foreign Wars, a member of Federated Crafts, past master of a Masonic Lodge in Stewartville, Mo., and a past patron of the Order of Eastern Star chapter.

Survivors are his wife, Gladys, and a son, Michael David. Mrs. Jones is a substitute teacher in Lemon Grove schools.

### Camp Fire Girls Observe Birthday

Camp Fire Girls merits a week of festivities on its 42nd birthday.

In June, 1914, Miss Edith Kempthorne came all the way from Juneau, Alaska, to attend a Guardsmen Training Course at Ames, Iowa, directed by Dr. Luther Guillet, founder and first president of Camp Fire Girls.

It is the creative genius of these two that is largely responsible for Camp Fire's program being different from that of any other. The Camp Fire way is really the Gulick way — taking the most ordinary tasks and lifting them from drabness to adventure; the sincere belief in the importance of beautiful surroundings and wanted "Seek Beauty" placed high in the law of the Camp Fire Girls.

"Worship God," the first day being Sunday is Church Day. The girls attend church services in costume, to pray that all men may practice tolerance. This is the day to reaffirm faith in fundamental human rights; the day to concentrate on fun and friendship, and growth to be discovered through understanding each other.

"Give Service," the citizenship emphasis in the program points the way toward concern and thoughtfulness for the needs of others.

"The Pursuit of Knowledge," "Be Trustworthy," "Be Happy," "Glorify Work," unite strength, with these ideals firmly in mind, many happy returns of the day to Camp Fire Girls.

The Blue Birds fun day held at the Community Center was "Once Upon a Time." Within its four simple words the essence of enchantment was held by the story telling lady, Mrs. Frank Les Tina.

### Theta Omicron

Mrs. Willis Richardson, 1907 Skyline Drive, was hostess to Theta Omicron Chapter of Beta Sigma Phi last Wednesday evening when Mrs. Roy Crowningshield was guest speaker.

Mrs. Crowningshield was well-

### CLOVED

Continued from page 1  
in both parties lined up behind Governor Warren's confession that taxes ought not to be slashed, while others argued as vigorously for immediate revenue cuts.

Measures calling for tax reduction have been offered in both houses. Tax cuts ranging from \$1,000,000 to over \$100,000,000 will come before the divided legislature bills that would cut the sales tax from three percent to two and one-half percent, increase the personal income tax exemption and decrease the bank and corporation tax. While some of the legislators favor applying surplus revenues on outstanding obligations rather than attempt tax rate cuts, arguing that the state ultimately will have to stand a percent of the \$250,000,000 school house construction bond issue because of the inability of the local school districts to pay, others accused the governor of denying the people a tax reduction.

The governor is also accused of departing from a fiscal policy when he recommended an appropriation to be repaid out of bond issues not yet voted by the people.

The governor, in his message to the legislature, had urged the state bond issue for school construction but in the meantime a state loan of \$40,000,000 to local school districts, pending a vote on the proposed bond, and the lending of \$55,000,000 to the State Department of Veterans Affairs for the continuation of the Veterans Farm and Home Purchase Program, to carry on this program until next November when a new bond issue will be voted on. This bond issue could have been advanced to the June Primary. This automatically would have placed on the same ballot the McLain pension scheme, the anti-cross-filing initiative, and the referendum measure to restore private non-profit schools to the tax rolls.

In addition to the 120 legislators converging on the Capitol this week, together with scores of attachés, newspaper men and lobbyists, the State Supervisors Association is also meeting with Supervisors Dave Bird, Frank Gibson, Dan Rossi and Dean Howell. Also seen around the Capitol were Guy Harrington and S. W. Shepard of Rohr Aircraft Co., attending the California Manufacturers Association meeting.

Qualified to speak on the appreciation of art study subject for the evening, as she is a well-known local artist and serves as program chairman of the La Mesa Foothills Art Association.

At the business meeting which followed Mrs. W. E. Beistline, president, called for the report of the nominating committee, given by the chairman, Mrs. H. E. Emerson. Reports also were made by Mrs. Dwight Ellis, chairman of ways and means, who is planning a benefit card party in April, and Mrs. Richardson, chairman of a special by-laws committee, who read proposed amendments.

At the next meeting on March 26, Mrs. Richardson will present the second lesson on "Pictures" and annual election of officers will be held.

### Reviewing Sports

By ROGER CONLEE  
Rain Spoils Helix Track,  
Baseball Outings Friday

Rain spoiled a Helix-Grossmont baseball game and a Helix-San Diego dual track meet last Friday at Grossmont High.

The Highlanders' baseball club, scheduled to open the 1952 City League diamond season against Cesar's staunch rivals, Grossmont, were forced to re-schedule the tussle for March 25. Tall flipper Noel Mickelson was set to go against the Foothillers and seek victory number one in the 1952 campaign.

The Helix track squad was saved from an inevitable beating by the strong San Diego cinderne men. The Highlanders opened their season two weeks ago, taking a 20-83 drubbing by Hoover.

The Highlanders' baseball team, the anti-cross-filing initiative, and the referendum measure to restore private non-profit schools to the tax rolls.

In addition to the 120 legislators converging on the Capitol this week, together with scores of attachés, newspaper men and lobbyists, the State Supervisors Association is also meeting with Supervisors Dave Bird, Frank Gibson, Dan Rossi and Dean Howell. Also seen around the Capitol were Guy Harrington and S. W. Shepard of Rohr Aircraft Co., attending the California Manufacturers Association meeting.

At the business meeting which followed Mrs. W. E. Beistline, president, called for the report of the nominating committee, given by the chairman, Mrs. H. E. Emerson. Reports also were made by Mrs. Dwight Ellis, chairman of ways and means, who is planning a benefit card party in April, and Mrs. Richardson, chairman of a special by-laws committee, who read proposed amendments.

At the next meeting on March 26, Mrs. Richardson will present the second lesson on "Pictures" and annual election of officers will be held.

The Highlanders' baseball team, the anti-cross-filing initiative, and the referendum measure to restore private non-profit schools to the tax rolls.

In addition to the 120 legislators converging on the Capitol this week, together with scores of attachés, newspaper men and lobbyists, the State Supervisors Association is also meeting with Supervisors Dave Bird, Frank Gibson, Dan Rossi and Dean Howell. Also seen around the Capitol were Guy Harrington and S. W. Shepard of Rohr Aircraft Co., attending the California Manufacturers Association meeting.

Qualified to speak on the appreciation of art study subject for the evening, as she is a well-known local artist and serves as program chairman of the La Mesa Foothills Art Association.

**SPORTSMAN'S  
HORIZON**

By JIM RHODY

**About Light Tackle**

This is the report we promised some weeks ago here to pass on to all angler-readers who are interested in light bait-casting tackle. We have refrained from discussing the subject until we could give it a fair trial. We have given it that trial and are now ready to pass along our findings. Here they are:

**WILL Take More Bass**

Over the long haul, this type gear will take more bass—and for these reasons:

1. The smaller lures practical with this gear strike the water with less disturbance and thus will not frighten away prospective strikes.

2. The little lures more closely simulate the fish life on which bass feed and foraging fish are more likely to strike them without too much examination and thus give the angler a greater percentage of "fish-on" experiences.

3. The light line and the compact lures make for easier coverage of wider, further waters and give the angler just that much more opportunity to get at distant bass. Too, the new, spinning-type lures which have gained most popularity resemble in great degree many fly-rods lures and thus afford the angler an almost double-weapon: fly rod lure and distance-casting impossible except with light-tackle casting, or spinning, gear.

**Here Are The Facts**

Anglers interested in light-tackle gear should know these facts:

You don't have to be rich to get light-tackle casting rod that will really handle light lures. The Phillips people, at Denver, are producing the lightest and we think the best, bamboo "light-tackle" casting rod obtainable. This rod, weighing only 3 and 3/4 ounces is in the flyrod field in weight and one can almost cast a fly with it. Yet, it has the backbone and the guarantee to do the job the plug-caster demands of it. This rod will actually handle small fly-rods lures, which we proved to our own satisfaction, if used with one of the light, tournament-type casting reels, and a 4 to 6-pound test line. In the matter of line, silk is undoubtedly the best. Of course, it is more expensive because it won't wear as long, but the ease of casting it and the added distance it gives, makes up for that disadvantage. The rod we mention comes in lengths from 5 to 6 feet, is in two sections and the price is in the range of any angler who is really desirous of owning the right gear for the right job.

**Need Level Winder**

As far as the reel recommended, we don't mean that you have to get a real tournament reel without the level-wind attachment. Unless you are really an old-timer and grew up without a level-wind reel, you'd have the devil of a time laying the line evenly enough on the spool without a level-winder. Instead, the lightweight, narrow spool reels, will all do the job if you have one of the long rods light enough successfully to handle the light lures you will want to use.

"It's always a battle," Eddie said recently. "It was a tough battle when I first came out 20 years ago. Through the years it got to be no easier—Lawrie, Whirlaway, Hoop Jr., Citation and other winners—but big stakes are coming at you all the time. These are the ones you must win."

The two most venomous snakes in the world are said to be the tiger snake of Australia and the island viper which is found on a small island off the coast of Brazil.

**Wolf's Last Stand**

The wolf has left an impressive record with mankind. He has come to symbolize courage, sagacity, power, ferocity, and ruthlessness. He is pictured as a demon, a villain, a scourge—or as a benefactor, a ruler, and a hero. Many knights of olden days and even rulers of men added his name to their own as a symbol of strength and power. The stories about the Anglo-Saxon hero Beowulf (the War Wolf), and the Timber Wolf Division of the present American Army attest to the respect mankind has for this wild dog's fighting ability.

Today, the wolf is making a last stand in the United States. He formerly ranged over most of the country and posed quite a problem for the early settlers. The battle between men and wolves is marked with stories of famous wolves that evaded capture and raided cattle herds for many years. The fight was a losing one for the wolf, and as formidable as wolves often appeared, only a few remain today.

In a sense, those states which still contain a few wolves are fortunate in that the presence of a wild wolf testifies that some unspoiled wilderness does remain.

**Rubber Bands**

The wolf has left an impressive record with mankind. He has come to symbolize courage, sagacity, power, ferocity, and ruthlessness. He is pictured as a demon, a villain, a scourge—or as a benefactor, a ruler, and a hero. Many knights of olden days and even rulers of men added his name to their own as a symbol of strength and power. The stories about the Anglo-Saxon hero Beowulf (the War Wolf), and the Timber Wolf Division of the present American Army attest to the respect mankind has for this wild dog's fighting ability.

"It's always a battle," Eddie said recently. "It was a tough battle when I first came out 20 years ago. Through the years it got to be no easier—Lawrie, Whirlaway, Hoop Jr., Citation and other winners—but big stakes are coming at you all the time. These are the ones you must win."

**Young Woman Becomes Bride And Widow at Same Instant**

LAROCHELLE, France.—At the instant young Yolene Bardin became a bride, she also became a widow.

Miss Bardin met Sgt. Jacques Guionneau when he was on leave from Indo-China. After he returned, they decided to be married by mail, a procedure authorized for French servicemen. The sergeant signed his part of the contract and put it in the mail.

Before the documents arrived in France, however, he was killed by a hand grenade. The girl's parents tried to have the absence marriage stopped then, but officials ruled it could go ahead. So Yolene became a bride and a widow before a major witness.

**River Bass**

When fishing a river do not be deceived in thinking that the small-mouthed black bass is in the center of the pool. He is more generally found in the bubbly, foaming waters at the edges of the pool or eddy. Only suckers and chubs are found in the middle of the pool on most occasions. Neither do the river bass lay close to the surface, as many believe. The fish are invariably at or near the bottom, darting up to take the bait.

**Mobile Armed Forces Radio Stations Entertain Troops**

TOKYO—Two mobile Armed Forces Radio Stations now are operating north of the 38th parallel in Korea, transmitting information and entertainment to frontline soldiers.

Master programming for the two 400-watt stations—known as Troubadour and Gipsy—is done at Taegu, Korea. The local programming comes from record libraries and tape recordings.

Operating 23 and one-half hours daily, the two stations have their own power units as well as shortwave receivers which pick up programs from Japan and the United States for re-broadcast to nearby troops.

**Mobile Menu Playfully Pokes Fun at Illinois' Neighbors'**

DELEVAN, Wis.—The recent horse meat scandals prompted the Colonial hotel here to print a special menu for our friends from Illinois.

Owner Dick Sheehan says it is all in fun, but the "Stable d' Hote" offers pony of brandy, assorted horse dainties, horses neck, marinated herring and soup à la seau blanc.

"Stable entries" are: Colt cuts and end tails, tilly mignon, horse n' pfeffer, chow mane with curry, pancakes and stirrup, habaneton sandwiches, thorough bread, and percheron.

**Britain Spring Calendar Offers Many Attractions**

WASHINGTON, D. C.—Menhaden

—what are they?

Most inlanders and even some of the salty mariners who helped catch a billion and a half menhaden in U.S. coastal waters of the Atlantic in 1951 might fail to answer that question in a quiz program.

Yet more menhaden have been taken from American waters than any other fish species. The 1951 catch, when finally tabulated, will run just about one-fourth of the year's total of 4.4 billion pounds of U.S. commercial fishery product, Fish and Wildlife Service estimates.

An annual event since 1958 when the crews wore top hats and, in comparison with the present-day effort, rowed almost in slow motion, the Oxford-Cambridge Boat Race today attracts visitors from all over the world.

**Seeking Win**

This year Oxford hopes to erase its record of five years of defeat with a gimmick borrowed from America's Ivy League—a training barge in the form of a double-barrelled shell, nicknamed "Leviathan."

Rowed by sixteen instead of eight oarsmen, it's an aid to the coach in selecting a final crew.

Great Britain has given more sports to the world than any other nation, and the Spring sports calendar is especially good. The flat racing season opens March 26 with the Lincolnshire Handicap, at Lincoln, just three hours from London. On April 5, everything in Britain stops, including tea, for the greatest horse-racing event in the world—the Grand National at Aintree, Liverpool. Special four-day tours by air will be arranged for this event.

Visitors can also see American football's early ancestor—an old British sport called "Hare Pie Scrabbling and Bottle Kicking."

Played on Easter Monday in Hallaton, Leicestershire, it is one of Britain's many robust, colorful old customs, which are becoming more and more popular with overseas visitors. On Hare Pie Bank near the town, children scramble for pieces of meat pies and villagers kick beer-filled casks toward the "goalposts," two streams a mile apart.

The scrummage that results is clearly a relic of an ancient, if messy, form of American football.

Vivid sporting events in the crisp spring air are just one phase of Britain's early season offering, when a wider choice of accommodation prevails and the visitor can take advantage of low-cost travel rates.

**Theater Land**

The Shakespeare Festival at Stratford-on-Avon will open on March 13, lasting until October 24, the longest season on record. Drama lovers find London a dream of good theaters, varied productions, and a long season, lasting practically the year round. One big attraction is the price: \$1 buys good seats. Another advantage is an early 7 o'clock curtain. No need for rushing through dinner (have tea instead); you'll be out early enough to explore the restaurants for a leisurely dinner after the play.

For art lovers, the Royal Academy's winter exhibition runs until March. Many of the paintings now on view are loan from homes and palaces throughout Britain, and include works by Reynolds, Gainsborough, Lawrence, Turner and Constable. In addition, there's the National Gallery, the Wallace collection, the Tate Gallery, and many smaller showings sponsored by private dealers.

**Stretching himself on the ice,**

Danny Seitz, a newspaper delivery boy who is recuperating from polio, was the first to reach Edward Ashby, 11, struggling in the water.

Danny, stricken in 1944, is not able to skate himself.

**Professor Says More Honey Used if Food Value Known**

NORTH HAVEN, Conn.—A 13-year-old polio victim, still wearing leg braces, crawled out on the ice in a pond here to help rescue a young skater who had broken through.

Danny Holt, a newspaper delivery boy who is recuperating from polio, was the first to reach Edward Ashby, 11, struggling in the water.

Stretching himself on the ice, Danny seized the younger boy by the arms and supported him until three other boys could pull him to safety.

Danny, stricken in 1944, is not able to skate himself.

**Mobile Homes**

ARMY, AIR FORCE, NAVY and Marine Corps camps and stations now provide "trailer parks" so that GIs can keep their families together in these "mobile homes."

With both military and defense industry leaders encouraging this method of beating housing shortages, the trailer industry is building more than 20% of its 65,000 units in 30-foot models or larger, planned for all-year, all-weather living.

**Western Exposure**

Rooms with a western exposure are generally the warmest—particularly during the afternoon. For this reason, it is usually wise to select cool colors for their walls and woodwork. When choosing your paint color, remember that, towards evening, the light becomes soft and seems to mellow all colors. Earlier, it is brilliant and will make a great color change in your room unless soft tones have been selected.

**Bike Fitting Is Easy**

It's unnecessary to have your youngster present when purchasing a bicycle for him or her. Follow this simple bike-size rule: For children 3½ to 5 years old, get a 16-inch size bicycle with "outrider" wheels; for 5 to 7-year-olds, a 20-inch bike is correct; 8 to 10-year-olds should get 24-inch bikes; for 11-year-olds and up, a full-sized 26-inch bicycle will fit the bill.

**Long-Life Plug**

What is believed to be a record for spark plug durability was set in one motor of an Eastern Airlines Constellation for 20,000 miles from each plug in 25,000 miles of service during 61 hours flying time—according to Champion research engineers.

**Servicable**

An interchangeable combustion chamber, which permits use of a natural, manufactured, or bottled gas has been perfected by Carrier research engineers for the all-year home air conditioner, which cools in summer and heats in winter.

**Salt Lake Explorer**

The recently published Journal of Peter Shene Ogden, Oregon, and Utah trapper and explorer, make no mention that Ogden, himself, ever saw Great Salt Lake, though his discovery has been credited to him.

**Rare Gas**

Krypton, a rare gas used in television tubes, is obtained from air by a process developed by Air Reduction Company, although only one-tenth of a cubic foot of krypton is found in 1,000,000 cubic feet of air.

**Single and Double**

Single vision spectacles have been used to improve man's eyesight for well over six centuries, and bifocals have been worn since Benjamin Franklin invented them in 1784.

**Fish of Aliases Lead Commercial Catch in U.S. Nets**

WASHINGTON, D. C.—Menhaden

—what are they?

Most inlanders and even some of the salty mariners who helped catch a billion and a half menhaden in U.S. coastal waters of the Atlantic in 1951 might fail to answer that question in a quiz program.

Yet more menhaden have been taken from American waters than any other fish species. The 1951 catch, when finally tabulated, will run just about one-fourth of the year's total of 4.4 billion pounds of U.S. commercial fishery product, Fish and Wildlife Service estimates.

An annual event since 1958 when the crews wore top hats and, in comparison with the present-day effort, rowed almost in slow motion, the Oxford-Cambridge Boat Race today attracts visitors from all over the world.

**Seeking Win**

This year Oxford hopes to erase its record of five years of defeat with a gimmick borrowed from America's Ivy League—a training barge in the form of a double-barrelled shell, nicknamed "Leviathan."

Rowed by sixteen instead of eight oarsmen, it's an aid to the coach in selecting a final crew.

Oily, mealy, and bony, the menhaden has never been popular on American dining tables—a good reason why it is little known back from the Atlantic coast. More people come into contact with it, however, than with any other fish species. The 1951 catch, when finally tabulated, will run just about one-fourth of the year's total of 4.4 billion pounds of U.S. commercial fishery product, Fish and Wildlife Service estimates.

Numerous aliases make menhaden unfamiliar by that name to some of the men who live by catching them. Along the Maryland and Virginia coasts they are known as bugfish, bugfin, oldwife, olewife, greenback, and chebeg.

Delaware adds mossbunker to the list. Connecticut's fishermen talk about whitefish, bonnyfish, and bunker. Southward, Carolinians refer to menhaden as fatback and pogey.

The menhaden is one of the many members of the herring family. Full grown, it weighs about three-fourths of a pound and measures a foot long. Its name is derived from a Narragansett Indian word meaning "enricher of the earth." The Indians well knew its value as fertilizer placing a fish in each hill of corn as they planted.

Visitors can also see American football's early ancestor—an old British sport called "Hare Pie Scrabbling and Bottle Kicking."

Planned in Hallaton, Leicestershire, it is one of Britain's many robust, colorful old customs, which are becoming more and more popular with overseas visitors. On Hare Pie Bank near the town, children scramble for pieces of meat pies and villagers kick beer-filled casks toward the "goalposts," two streams a mile apart.

The scrummage that results is clearly a relic of an ancient, if messy, form of American football.

## READY FOR GOP?

**T**HE RECONSTRUCTED and overhauled White House is nearly finished and President Truman took a group of friends over for a looksee the other day. The whole structure has been enormously strengthened, but we still doubt that it could stand the shock if a Republican moved in after all these years.

And it is our belief that Harry Truman would never feel so disgusted as he would if, after all the improvements on the building, he found no Democrat was going to enjoin them.

The improvements have been extensive. Our Washington correspondent in charge of alterations sends us the following outline:

Bathrooms: Now de luxe. Floor which Harry reported was in danger of collapsing under his tub has been "Gibraltarized." Question? But if it should go through the floor would you be in it?" remains unanswered.

Elevators: All modernized. The stops are no longer jerky and if the President feels shaky in one, it is not the elevator's fault.

Stairways: New and stronger banisters permitting President to slide down them when every other source of relief from cares of office have failed. All creaks removed from stairs so President can get home late without a challenge and sneak into writing room or kitchen undetected.

Kitchens: Highly modernized in the current mode, with everything streamlined and the effect so dazzling you are at first not certain whether you are there to cook, swim or dedicate a new Pullman car. Iceboxes are the very latest in craftsmanship and gadgeteering. Each one is so modern that no commercial under 10 minutes could explain the features. Kitchen contains first icebox in history with compartments enough to hold not only foods and drinks, but also flannels and fire-side chats. This icebox also can be used as a jukebox, pinball machine, and phonograph and video. President can now get a cold snack, 20,000 points on the scoreboard, the Hit Parade and a girl show in one operation. President admits it is the finest kitchen he has ever had. (But he won't say what's cooking?)

Writing Room: Very novel. Moment the President crosses threshold a red light is flashed on the desks of all his advisers and secretaries. Desk chair has an electric attachment so that when he sits down a concealed phonograph keeps shouting "Hold everything!"

Gymnasium: Unchanged except for a larger hat-hurting court.

Lincoln Room: Newly redecorated, but suggests that glass in mirrors be removed and pictures of White House occupant substituted as he has been rejected.

My love for you shines like the sun;  
To all the world I shout it;  
And ain't it grand that Washington  
CAN'T DO A THING ABOUT IT?

Deep love I send you, darling—  
I prithee do not scoff;  
I get it for you wholesale,  
And all controls are off!

His acceptance of the OPS job makes Ellis Arnall of Georgia the bravest Southerner since Robert E. Lee. . . . Lee was supposed only to roll back Grant, . . . Arnall is supposed to roll back human selfishness. . . . Harry Truman says he was never fond of Spain. . . . Can't think of the place without thinking of Dewey. . . . Washington has held hearings on a bill barring liquor ads from radio and video. . . . Maybe the fear is of a jingle painting whisky as a cold cure, a detergent, dynamite to dirt, a vitamin-packed late snack and something 100 doctors went into without discovering a single case of irritation due to cocktails. . . . Shudda Haddim missed "Bargainer" at \$20.00 and says the trouble was that he was looking for a better price. . . . From the heavy loads shown on the back of G.I.'s in those parachute exercises it would seem fair to ask are they soldiers or pack mules? . . . Charlie Kullman, now singing his 25th role at the Met, is a Connecticut boy who used to go out fishing around Sachem's Head. . . . "I have been tagged for a thankless task"—Governor Arnall in taking Mike DiSaile's job. . . . The price tag of the year, as it were.

Mike DiSaile advises his successor to "grin and bear it." What? No grin controls? No ceilings on "bear-it"?

Maybe one of the major parties will employ as a slogan in the coming election "Two video sets in every home and a balloon in every garage!"

Keith McHugh, president of the New York Telephone company, announces the 5,500,000th subscriber, and insists that it is not a lot of talk at all.

## Another way to Save with CLABBER GIRL

## Sliced Ham Roll

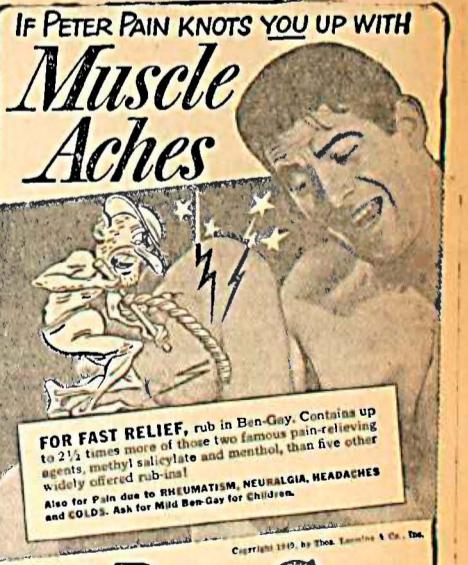

**BISCUIT**  
2 cups sifted all-purpose flour  
2 1/2 teaspoons Clabber Girl Baking Powder  
1 teaspoon salt  
1/2 cup shortening seed  
6 tablespoons shortening  
1 cup milk

**HAM FILLING**  
2 cups cooked, ground ham  
1 cup pickled onions  
1 tablespoon prepared mustard  
1 cup gravy or brown cream sauce

**BISCUIT** Sift together flour, baking powder and salt. Mix in earsayeed. Cut in shortening until mixture resembles coarse meal. Add milk and mix to make a soft dough that can be handled and formed into a ball. Transfer ball of dough onto a lightly floured board, knead until smooth. Roll out into a 12x12-inch rectangle. Spread ham filling, filling with the ham and roll like a jelly roll. Place on a greased baking sheet. Brush lightly with milk. Slash roll into six pieces, cutting almost through roll. Turn each piece outside down on a baking sheet and bake in a 425° oven for 25 minutes or until well browned. Serve with mushroom sauce.  
**HAM FILLING** Mix all ingredients together thoroughly. Serves six.

**CLABBER GIRL**  
IS NOW EXCLUSIVELY KNOWN AS  
THE BAKING POWDER WITH  
THE BALANCED DOUBLE ACTION

**RED CROSS**

Continued from page 1  
without charge to physicians and hospitals, Red Cross Regional Blood Banks were set up on the coast only where other blood banks were either non-existent or inadequate.

In June, 1950, when the Korean fighting started, the Department of Defense immediately requested the American Red Cross to recruit blood donors for the armed forces. This has been a great and vital task, and with the cooperation of the American people the job has been accomplished. However, at times the supplies of blood and plasma in Korea and Japan has been critically short, and great publicity drives have been needed to help recruit the necessary number of donors. By the end of last year 160,000 pints of whole blood had been flown to Japan out of the 1,300,000 pints taken by Red Cross for the armed forces.

The rest of this great quantity was processed into plasma and other blood derivatives. It takes 44 pints of whole blood to produce one unit of 500cc. of plasma (approximately one quart).

In this great operation Red Cross has paid all costs of recruiting and taking blood; food, transportation, etc., except cost of

equipment and personnel of such privately owned blood-mobiles used by Red Cross in the program. This item is paid for by the Department of Defense. As soon as all blood reaches the laboratories in Los Angeles or San Francisco for processing it becomes the property of the Department of Defense. The cost of the blood program to Red Cross this year will be about \$19,000.00.

Too much cannot be said for the use of blood in the treatment of war casualties; for with it, and modern methods and transportation, 97 percent of the wounded are saved.

The value of the Red Cross National Blood Program at home can be estimated when it becomes known that during the 18 months preceding the first of this year that over 1,800,000 pints of blood

were taken in this country and given away free to all who needed it.

What points the way?

There are a good many fine insurance agencies—with experience and knowledge and services which recommend them highly to the public. How can you tell which ones come under this category? What points the way? There are a number of things. First of all, good agents represent good insurance companies. Next, the good agent is always anxious to render services which are unusual but essential to the insurance welfare of his policyholders. He knows how to build a good insurance program. He is not after just the expiration dates on your present policies. He is willing to advise first, before you buy.

**PTA News**

The March meeting of the Lemon Grove School P.T.A. will be held next Thursday evening at the San Miguel School at 7:30. In keeping with the year's theme "Our Children - Their Place in the Community," this month's topic is "Our Children's Community - the World." Mrs. E. M. Kanyon, program chairman, is planning to show an excellent film on International Relations.

The nominating committee for next year's officers has prepared the slate and will present it during the business meeting. Refreshments will be served by the 5th grade room representatives, with Mrs. Loreta Devin, chair-
